

Registration for the Provenance Research Day

FAQs

- Q. Can I register more than one event?
A. Yes, please fill out an online form for each event.
- Q. Is a conference or a panel discussion one or more events?
A. As a rule, this is only one event, even if several people representing different institutions participate. This also applies to (digital) cooperative events, such as museum associations or public departments.
- Q. Does social media (twitter, instagram, facebook) count as a separate event or only as a type of event?
A. It counts as a separate event, only if it is an independent contribution. If it is just an accompanying advertising measure for another event, it counts only as one of several types of an event. However, the decision lies solely with the applicant.
- Q. How do I register an event with several participating persons?
A. The event is registered only once and every participating person is entered in the input field designated as “persons participating”.
- Q. How do I register an event as a solo self-employed person?
A. With the location of the event or with the depository of the thematised objects.
